EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Hudak on 8/22/05.

The application has been amended as follows:

2. Newly submitted claims 10-20 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Newly submitted claims 10-20 claims a tread plate having stripes of abrasive material thereon but this can be produced by another and materially different process such as a process that does not require the step of marking an edge of the tread plate in predetermined substantially equal increments.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 10-20 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. Claims 10-20 have been cancelled without prejudice.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach: A method of fabricating a tread plate having

incorporated thereon comprising the steps of: Placing a covering in every alternating incremental space on the tread plate; Filling the uncovered areas on the tread plate with a first resinous material; Removing the covering from the alternating incremental spaces on the tread plate so as to reveal angularly oriented stripes of the first resinous material on the tread plate; Placing a covering on the surface of the angularly oriented stripes of the first resinous material on the tread plate; Filling the spaces between the angularly oriented stripes of the first resinous material with a second resinous material; and Removing the covering from the surface of the angularly oriented stripes of the first resinous material in combination with the other elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John C. Hong whose telephone number is 571-272-4529. The examiner can normally be reached on M-F(07:00-16:30)First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bryant can be reached on 571-272-4526. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
